<i>Expo Stone</i>	8700 Clay Road # 200	Houston, TX 77080	713 329-9090

Some of these vendors have beautiful informative websites, a perfect starting place for research; but we strongly caution against choosing a color from the internet. Our bid will include price for the material, fabrication and installation, unless noted. If possible, **view all the slabs in the batch.** Please be aware that some colors are more prone to cracks and fissures, an expected feature of natural stone. The number of slabs required will depend on the material you choose. There is no “standard size” slab. You will select and “tag” slabs. After the bid is accepted, and a signed contract is in place, you will be asked to **approve the “layout”** of the slabs for fabrication here at our shop. Of course you may waive this step; but because you are choosing a **natural stone** for its unique beauty in your space, we want you to be involved in the process.

Thank you for choosing Bolfing Brothers Marble Inc.
