

## *Our Mission*

We believe it is our place in this world to support and nurture our family, physically, emotionally and spiritually, by operating a business in the community based on ethical and moral Christian standards. We strive to serve the construction industry by the manufacture and installation of beautiful and useful products for bathrooms and kitchens.

We believe long term stable employees help us to exceed the industry standards of quality and service, making our guarantee to the homeowner, a reality. To that end, we provide a fair wage, generous benefits, and a workplace which exceeds industry standards for safety. We demand compliance with performance standards as our clients demand quality of us.

We acknowledge that to meet these goals we must continue to be profitable. We strongly believe that it is our responsibility to benefit all those whose lives are touched by our efforts to make a profit. We humbly acknowledge that whatever talent or ability is involved in our pursuit is God given, and we ask God to bless and multiply our efforts.

*Phil and Rose Anne Bolfing*
